WILL ESTABLISH HEALTH CENTER

County Red Cross Will Start New Work Here in September.

INSTRUCTION GIVEN

Will Co-Operate With Other Agencies in Doing Wellfare Work.

A general health center is to be established by the Tulsa county chapter of the American Red Cross early in September in the new quarters at Fourth and Cincinnati into which the chapter will move the first of August, it is announced.

Service which will be rendered by the health center will be health instruction through classes in home hygiene and care of the sick, distribution and dissemination of information in regard to health, and other activities as yet not planned in detail. In establishing this health center the Tulsa chapter will keep step with the most progressive of other Red Cross chapters throughout the country.

other Red Cross chapters throughout the country.

No welfare work by other organizations will be duplicated in the Red Cross health center, which will instead co-operate with other agencies. A fine example of this assistance without overlaping is the cooperation given by the Junior Red Cross of Tules county with the Tuberculosis association, board of education, school nurses, and home economics department of the high school, and the furnishing of material for the health crusade campaign in country schools.

Courses in home hygiene and care of the sick wil be continued in the

of the sick wil be continued in the fall and winter under the tutelage of Mrs. William D. Godfrey. Mrs. Lilah D. Lindsay is chairman of home nursing activities.

The work of the local chapter as

a health agency goes to the v during which home nursing, ho hygiene and first aid were taught.

Diplomats of World Snapped at Spa

Left to right: Ambassador Chinda, Count Sforza facing camera), Premier Lloyd George and Premier Millerand
Problems of the greatest moment to the leading nations of the old world were discussed at the recent Spa
conference. The photo was taken while a group of delegates were engaged in earnest conversation on the
front porch of the villa at Spa where the meetings were held. The leading figures at the conference were
Premier Lloyd George of England and Premier Miller and of France. Ambassador Chinda, also a noted
diplomat, represented Japan.

METAL MARKETS IN GOOD SHAPE

Clearing Up of Railroad Wage Question Is Favorable Factor

NEW YORK, July 25 .- Iron and

expected to resume oper purchases of 1,000,000 pounds daily.

A feature of the lead market was the action of leading operators on last Wednesday in advancing the spot prices from 8 to 8 1-2 conts New Ycik, and 7 2-4 to 8 1-4 cents East St. Louis delivery.

The open market is much stiffer at 9 onts New York and 8 3-4 cents Rt. Louis as a result of exceedingly limited supply of metal.

Zinc continues in a strong position.

Antimony steady at 7 3-4 cents apol with buyers active.

By MRS. J. R. M'WILLIAM

by String of Nice

By MRS. J. R. M'WILLIAMS

NEW YORK, July 25.—Iron and routheast of the southeast of

homes that would soon grow to larger dimensions, these men, and the proprietor of the Sanitary Grocery company, erected small store buildings and set forth enticing inducements to the people they desired to draw to the surrounding regions. Because of the reasonable price of the land and of the feed to be purchased there it was destined to be a plan that proved its worth at the time of conception. of conception.

At present there are eight stations from the Tulsa city limits to Sand Springs. The number of stores at Springs. these stations has increased to seven-teen, most of them located on the cement road. The amount of con-struction being done is phenomenal. and while no separate official consus has been taken of these stations, be-cause of their population being for small to be incorporated, it would small to be incorporated, it would be hardly an exagenation to say that the aggregate count would ex-ceed two thousand and be well to-ward the three thousand mark. A few years ago there was a col-ored park, known as Midway, in the territory between the two towns, but that has been discontinued and near

that site is now being erected the company plant and an office build-ing. There is word given out from some source the around this plant will arise another colony similar to these already in existence, and form-ing another link in the chain connecting the two towns. This kind of connection, a line of home owners and taxpayers would be an ideal union between the industrial cen-ders of the two places and is a thing to be looked forward to as the lost cal outcome of a plan entered upon in the pioneer days of the commu-nity which are not so far back in the misty past as to be confined to the memories of the older people of the vicinity.

The Roxana Petroleum company's
No. 2 Skeen, in the northeast corner
of the southeast of the southeast of
11-19-5e, is a 25 barrel well after
the shot in the 3,100 foot pay.
